

SHORT-INFO

MicorTIG 200

The PEAK of mobile TIG welding.

- Three-way flexibility
- Remote control at the torch
- Intuitive control

At a glance

Three-way flexibility

Completely independent thanks to All-In technology for mains supply, generator and battery

Intuitive control

ControlPro control panel with graphic display, push-and-turn controller and job memory function

Remote control at the torch

The Powermaster torch puts all welding parameters right at your fingertips

Portable TIG welding inverter

Mobile and compact 200 DC TIG welding -machine with MicorBoost technology, non-contact high-frequency ignition and -electrode welding function.

Total flexibility

Completely independent thanks to All-in technology for mains supply, generator and battery.

Powerful

The built-in Power Factor Correction Module (PFC) provides for an -optimum mains load as well as full capacity during 230 V mains operation.

Graphical display with language selection and job memory

The MicorTIG 200 ControlPro offers a clearly structured user interface that makes controlling the machine fully intuitive.

Pulse and fast pulse

The integrated pulse function with up to 5 kHz is -exceptionally well-suited for welding thin sheets.

Benefits

Safety.

Bearing the IP23 and S-symbol, the series is ideal for -applications in the field.

Robust and protected against falls from a height of up to 80 cm.

Thanks to its specially designed crash protection the MicorTIG 200 DC is sure to survive a fall from heights of up to 80 cm completely unscathed. Should you accidentally drop your welding machine or allow it fall off the workbench, you can simply power through and keep working.

Remote control at the torch.

No more need to switch back and forth between workpiece and machine. The optional Powermaster torch puts all key welding parameters right at your fingertips, i.e. on the handle.

Energy efficient.

The MicorTIG utilises cutting-edge industrial electronics and on-demand technology to achieve a superior level of efficiency and exceptionally low power consumption.

Controlconcept

BasicPlus

- HF ignition
- Pulse function with up to 5 kHz
- Exact-ampere digital display
- Infinitely variable current setting
- Menu for setting the auxiliary parameters
- Electrode pre-selection for Standard and CEL
- Switch 2-stroke/4-stroke
- Remote control connection
- Possibility for connection of the Lorch Powermaster remote control torch

[Translate to English (en-EN):] ControlPro

- Menu navigation via detailed welding sequence control
- HF ignition
- Pulse function with up to 5 kHz
- Job memory for 10 welding tasks
- Exact-ampere digital display
- Infinitely variable current setting
- Electrode pre-selection for Standard and CEL
- Switch 2-stroke/4-stroke
- Remote control connection
- Possibility for connection of the Lorch Powermaster remote control torch

Technical Data: MicorTIG series

MicorTIG 200

TIG

welding range (in Amps)	5-200
current setting	infinitely variable

Electrode

weldable electrodes (mm)	1,5-4,0
--------------------------	---------

Duty cycle TIG DC

duty cycle 100% (in Amps) - DC	140
duty cycle 60% (in Amps) - DC	160
duty cycle at max. current (in %) - DC	25%

Mains

mains voltage (in V)	230
phases (50/60 Hz)	1~
positive mains tolerance (in %)	15%
negative mains tolerance (in %)	40%
mains fuse (in Amps)	16
mains plug	Schuko

Dimensions and weights

dimensions (LxWxH) (in mm)	360x130x215
weight (in kg)	6.8

Standards and approvals

standard	EN 60974-01
protection class (EN 60529)	IP23S
insulation class	F
designation	CE, S
