

PROGYS 180A is a powerful Inverter stick welder (MMA) designed for professional use and industrial maintenance on site or in the workshop.

Easy to carry.

Accurate arc.

Welds any type of electrodes in DC up to $\varnothing$ 4mm rutile, basic, stainless steel and cast iron.

Can be used on a generator.

Compact and lightweight (5.1 kg).

Stick welding (MMA)

- ✓ **Good fusion**, for a high quality weld.
- ✓ **Easy to strike the arc** with a powerful Hot Start.
- ✓ **High duty cycle** enabling intensive use on $\varnothing$ 3.2 mm.
- ✓ **Ergonomic and lightweight**

**180
A**

INCLUDED

Delivered with :

- Plastic case
- Earth clamp (1.60 m - 16 mm²)
- Electrode holder (2 m - 16 mm²)

FEATURES

HOT START : Increased power at start.

ANTI STICKING : Prevents the electrode sticking.

ARC FORCE : Instantaneous increase of the current in difficult welding situation.

UNIT PROTECTED FOR USE ON GENERATORS AND AGAINST SUPPLY VOLTAGE VARIATIONS (+/-15%).
